Figure 1: A schematic diagram of the experimental setup. It shows a participant sitting at a table, viewing a screen. The screen displays a 3D model of a rectangular object with a red top face and a blue bottom face. The participant is looking at the object from a perspective that allows them to see the top and front faces. The object is placed on a surface, and the participant's hand is positioned near it. The diagram illustrates the setup for the experiment, where the participant is asked to judge the orientation of the object's top face.
